Math Game: Dirt Bike Proportions

✔ What I Practiced

What math skills helped you speed ahead?

☐ Plugging in the given answers   ☐ Other:

☐ Simplifying fractions

☐ Making true equations

⚙ How I Solved It

Solve for x. Show your thinking.

$$\frac{2}{3} = \frac{x}{9}$$

$$\frac{6}{8} = \frac{3}{x}$$

Next Steps

What slowed you down during the race?

What will help you do better next time?

☐ Practice equivalent fractions   ☐ Other:

☐ Look for relationships
