Math Game: Four Wheel Fracas

✔ What I Practiced

Which strategies kept your four wheeler in the lead?

☐ Plugged in the given answers   ☐ Other:

☐ Used inverse operations

☐ Made true equations

⚙ How I Solved It

Solve for x. Show your thinking.

$$x + 7 = 15$$

$$x - 9 = 12$$

◪ Next Steps

What slowed you down during the race?

What will help you do better next time?

☐ Solve one-step equations   ☐ Other:

☐ Model equations with a balance scale
