Math Game: Hexa Merge

✓ What I Practiced

What helped you make bigger numbers in this game?

- | | |
|--|---------------------------------|
| <input type="checkbox"/> Doubling the value of blocks | <input type="checkbox"/> Other: |
| <input type="checkbox"/> Thinking about chain reactions | |
| <input type="checkbox"/> Keeping the board from filling up | |

⚙️ How I Solved It

What strategies did you use to keep the game going?

When merging 3 or more tiles, you could predict where the new tile would appear. How did that help your strategy?

📌 Next Steps

What was tricky about Hexa Merge?

What would help you do better?

- | | |
|--|---------------------------------|
| <input type="checkbox"/> Rotate tiles for the best placement | <input type="checkbox"/> Other: |
| <input type="checkbox"/> Leave space for new blocks | |
