## Math Game: Math Hop

### ✓ What I Practiced

What skills helped you clear the board?

- |   |                                 |
|---|---------------------------------|
| <input type="checkbox"/> Finding averages                   | <input type="checkbox"/> Other: |
| <input type="checkbox"/> Properties of odd and even numbers |                                 |
| <input type="checkbox"/> Thinking ahead and planning moves  |                                 |

### ⚙️ How I Solved It

What is the average of 3 and 7?  
Explain your thinking.

Find 4 number pairs whose  
average is 7.

### 📌 Next Steps

What was challenging about this game?

What will you try next time?

- |   |                                 |
|---|---------------------------------|
| <input type="checkbox"/> Planning pathways in advance | <input type="checkbox"/> Other: |
| <input type="checkbox"/> Using scratch paper          |                                 |
