## Math Activity: Model Algebra

### ✓ What I Practiced

Which algebra skills did you practice today?

- ☐ Modeling equations with variables      ☐ Other:
- ☐ Keeping the scale balanced
- ☐ Solving for x

### ⚙️ How I Solved It

Model the equation.

$$2x + (-3) = 5$$

Solve the equation.  
Show your thinking.

### 📌 Next Steps

What was challenging about modeling equations?

What will you try next time?

- ☐ Make my own equations      ☐ Other:
- ☐ Practice 2-step equations
