## Math Game: Musical Mixup

### ✓ What I Practiced

What helped you figure out the cost of each instrument?

- ☐ Working step by step ☐ Other:
- ☐ Subtracting known prices
- ☐ Dividing identical instruments

### ⚙️ How I Solved It

What is the cost of one drum?

$$+ + = \$24$$

$$= \boxed{\phantom{00}}$$

What is the cost of one guitar?

$$+ + = \$50$$

$$= \boxed{\phantom{00}}$$

### 📌 Next Steps

What was tricky about solving the musical mixup?

What would make it easier?

- ☐ Writing math equations ☐ Other:
- ☐ Rows with only 1 type of instrument
