## Math Game: Number Bonds 20

### ✓ What I Practiced

How did you match the number balls?

- |  |                                 |
|--|---------------------------------|
| <input type="checkbox"/> Thought about the missing part  | <input type="checkbox"/> Other: |
| <input type="checkbox"/> Used number facts to make bonds |                                 |
| <input type="checkbox"/> Found groups of the same number |                                 |

### ⚙️ How I Solved It

Find four number pairs  
that make 12.

___ + ___ = 12	___ + ___ = 12
___ + ___ = 12	___ + ___ = 12

Find four number pairs  
that make 15.

___ + ___ = 15	___ + ___ = 15
___ + ___ = 15	___ + ___ = 15

### 📌 Next Steps

How can you get better at this game?

- |  |                                 |
|--|---------------------------------|
| <input type="checkbox"/> Make more number bonds            | <input type="checkbox"/> Other: |
| <input type="checkbox"/> Practice finding the missing part |                                 |
| <input type="checkbox"/> Group balls with the same number  |                                 |
