## Math Game: Quick Calculate

### ✓ What I Practiced

Which math skills did you use today?

☐ Using parentheses

☐ Other:

☐ Order of operations

☐ Mental math

### ⚙️ How I Solved It

What is the value of the expression below?

$$140 - (48 + 43) = \boxed{\phantom{000}}$$

Create an expression equal to 30, using two operations and one pair of parentheses.

### 📌 Next Steps

What was challenging about this game for you?

How can you do better next time?

☐ Look for shortcuts

☐ Other:

☐ Learn the order of operations
